

# MEATLINE 07

Version 11/18

Metal detector for connection to a vacuum filler in sausage production

- **Reliable** - in Process and Detection
- **Durable** - in Technology and Performance
- **Conforming** - in Design and Data management

In a few words:

- Digital signal processing for best detection
- Reliable and safe metal detection technology
- Process- and condition monitoring
  
- Indestructible and maintenance-free construction
- Resistant against external influences
- Highest precision in long-term operation
  
- Network connectivity and data management
- Password protected user management
- Hygienic Design
