

METRON 04 ProfiLine

Version 11/18

Metal detector in segmented design
for inspection of web&foil

- **Reliable** - in Process and Detection
- **Durable** - in Technology and Performance
- **Flexible** - in Size and Application

In a few words:

- Digital signal processing for best detection
- Proven for years in rough environments
- Process- and condition monitoring

- Resistant against external influences
- Robust construction for maximum lifetime
- Maintenance free, long-term operation

- Size variations for different areas of use
- Installation horizontal or vertical
- Area accurate detection in 300 or 150mm steps
